# **Morgan Stanley Investment Management Raises \$1.2Bn for Later-Stage Growth Equity Investments**

- Morgan Stanley Investment Management ("MSIM") announced today that it has closed on approximately \$1.2 billion of total equity capital commitments for North Haven Expansion Equity IX and North Haven Expansion Credit II to fund later-stage growth equity and credit investments in the technology, healthcare, consumer, digital media. Morgan Stanley Expansion Capital ("Expansion Capital"), exceeded the target total raise of \$850 million by over 40%.

# Elon Musk's SpaceX Valued at \$175 Billion or More in Tender Offer

- Elon Musk's SpaceX has initiated discussions about selling insider shares at a price that values the closely held company at \$175 billion or more. SpaceX is weighing offering shares at about \$95 apiece. A \$175 billion valuation is a premium to the \$150 billion valuation the company obtained through a tender offer this summer. The increase would make SpaceX one of the world's 75 biggest companies by market capitalization, on par with T-Mobile USA Inc. (\$179 billion), Nike Inc. (\$177 billion) and China Mobile (\$176 billion), according to data compiled by Bloomberg.
